

DISCOVER MORE IN THE LEBANON VALLEY

SNOW GOOSE & WATERFOWL MIGRATION

During late winter, the Middle Creek Wildlife Management Area becomes a premier waterfowl stopover location for the Spring Migration of Snow Geese, Tundra Swans, and many species of ducks. Visitors and enthusiasts can expect between 100,000 and 200,000 birds each year, with peak numbers between mid-February and mid-March.

We invite you to explore the southeastern region of the Lebanon Valley and discover small-town charm along the way. From one-of-a-kind shopping experiences and historical landmarks to refined menus in centuries-old taverns, a memorable experience awaits.

HERE'S WHAT YOU NEED TO KNOW

The Middle Creek Visitors Center opens February 1st

The Middle Creek Tour Road is open March 1st through September 30th

The best times to view snow geese on the lake are sunrise and sunset

Consider visiting during the week or in the early morning

The most popular place to view the geese is from Willow Point

The Middle Creek Wildlife Management Area is a 6,000-acre tract along the southeast region of the Lebanon Valley and is set aside for protecting and managing wildlife. This Globally Significant Important Bird Area provides a 400-acre lake, marshy habitats, and trails to observe flora and fauna.
